

A Community Partner

We are committed to providing quality care to our communities. As part of an investor-owned hospital system, we pay more than \$4.2 million in local taxes that go toward the improvement of local infrastructure and community programs.

We take the complex issues facing the uninsured very seriously. As such, Saint Louis University Hospital has adopted Tenet's Compact With Uninsured Patients policy. The program offers discount rates to all uninsured patients who receive treatment at our hospital, regardless of their income level.

Saint Louis University Hospital

Saint Louis University Hospital is a quaternary/tertiary referral center located in the heart of St. Louis.

Through our affiliation with and as the teaching hospital for Saint Louis University, we provide our patients and their families with an environment of medical innovation.

We are smaller than most major academic medical centers, which allows our physicians and staff the chance to know our patients and their families better. Working with us in this endeavor are our medical staff partners, the physicians of Saint Louis University.
