

**Mike McLean, Cardiology Shift Manager**  
Doctors Medical Center

Mike McLean has been known, during his more than 20 years of service at Doctors Medical Center, to go the extra mile for patients. Recently, he went well beyond his role to assist a patient and his family.

While on a trip with his family, a patient had to be flown in after suffering from an acute myocardial infarction. The family had taken a 36-foot motor home that the wife was unable to drive. Upon hearing about the patient and his stranded family, Mike immediately took action to ensure the family could be with the patient. Mike contacted his brother, who was licensed to drive the motor home, and coordinated a plan to help the family pack their campsite and transport them to the hospital. Before they arrived, Mike cleared the motor home's arrival with security and made sure it would be allowed to stay on the hospital grounds. When the family arrived well after-hours, Mike was there to greet them, settle them in and reunite the family.
