

Sohail Jalil, Assistant CFO
Houston Northwest Medical Center

Though Sohail Jalil is on staff at Houston Northwest Medical Center, regional leadership has asked him to assume responsibilities at hospitals throughout the Central Region. Among the hospitals that Sohail has served is Sierra Providence East Medical Center in El Paso, a relatively new hospital. Undaunted by the challenges of a new hospital, Sohail developed a budget, outlined a sound financial reporting process, implemented best practices, and helped the hospital earn the highest internal audit score possible, laying groundwork that has resulted in smooth operations for the hospital two years later.
